ABOUT AEA INDIA

Advancing India's Digital Future through Enterprise Architecture

AEA India, the India chapter of AEA Global, is a professional community dedicated to shaping the discipline of Enterprise Architecture (EA) as a strategic enabler for business and digital transformation in India. Comprising senior Enterprise Architects, CXOs, and Transformation Leaders, the community facilitates the exchange of architecture frameworks, reference models, implementation patterns, and domain-specific architectures across various industry verticals.

Our Mission

To advance Enterprise Architecture as a respected profession and discipline, enabling organizations to adopt effective, strategy-driven approaches to digital transformation, enterprise modernization, and e-governance.

Our Vision

To be India's leading community of Enterprise Architects, enabling enterprises and government institutions to design future-ready, high-impact ecosystems. We envision a thriving digital economy where EA principles fuel transformation, innovation, and sustainability, propelling India's growth as a globally empowered nation.
